e-Learning Program Review

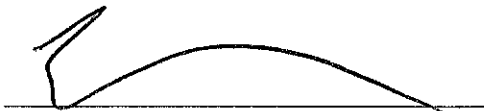

In order for the District to utilize e-Learning Days in lieu of Emergency Days, a Public Hearing must be held and the Board must adopt the e-Learning Program Resolution. Mr. Cameron and the Board reviewed the Resolution and the detailed *Responses to E-Learning Program Verification Form*, including the various procedures performed during an eLearning Day. An e-Learning Day allows the students to continue to have instruction, at home, via their chromebook during an emergency day. The students will have at least 5 hours of instruction and/or work to be performed during the e-Learning Day which meets the requirement of a school day. Since the e-Learning day qualifies as a school day, it will not need be made up by extending the school year. The Resolution is valid for three years. Mr. Cameron recommended that the Board approve the e-Learning Program Resolution during the Regular Board of Education Meeting of September 20, 2022.
